

PORTOFOLIO

Of Alfred Reyner Albiando

ABOUT ME

Hello!

I'm Alfred Reyner Albiando from Indonesia, a passionate Web Developer specializing in building modern web applications and mobile solutions with clean, efficient, and scalable code. Experienced in developing attendance systems, e-commerce platforms, and company profile websites, I focus on creating user-friendly and high-performance digital products that deliver real value to businesses.

EDUCATION

Pamulang University

Informatics Engineering | Undergraduate

  </div>
</div>
```

MY WORK

Here are a few of the web and mobile applications I've developed, ranging from attendance systems to e-commerce platforms.

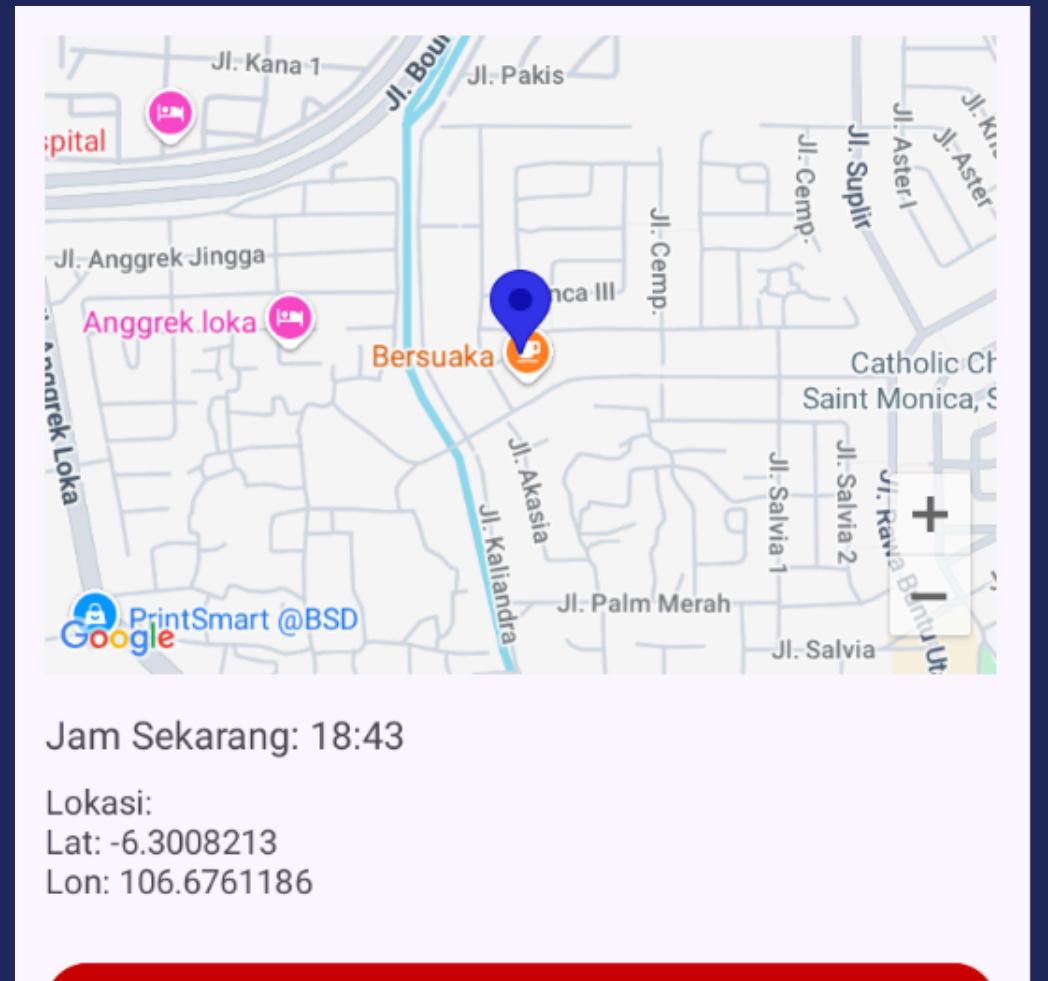

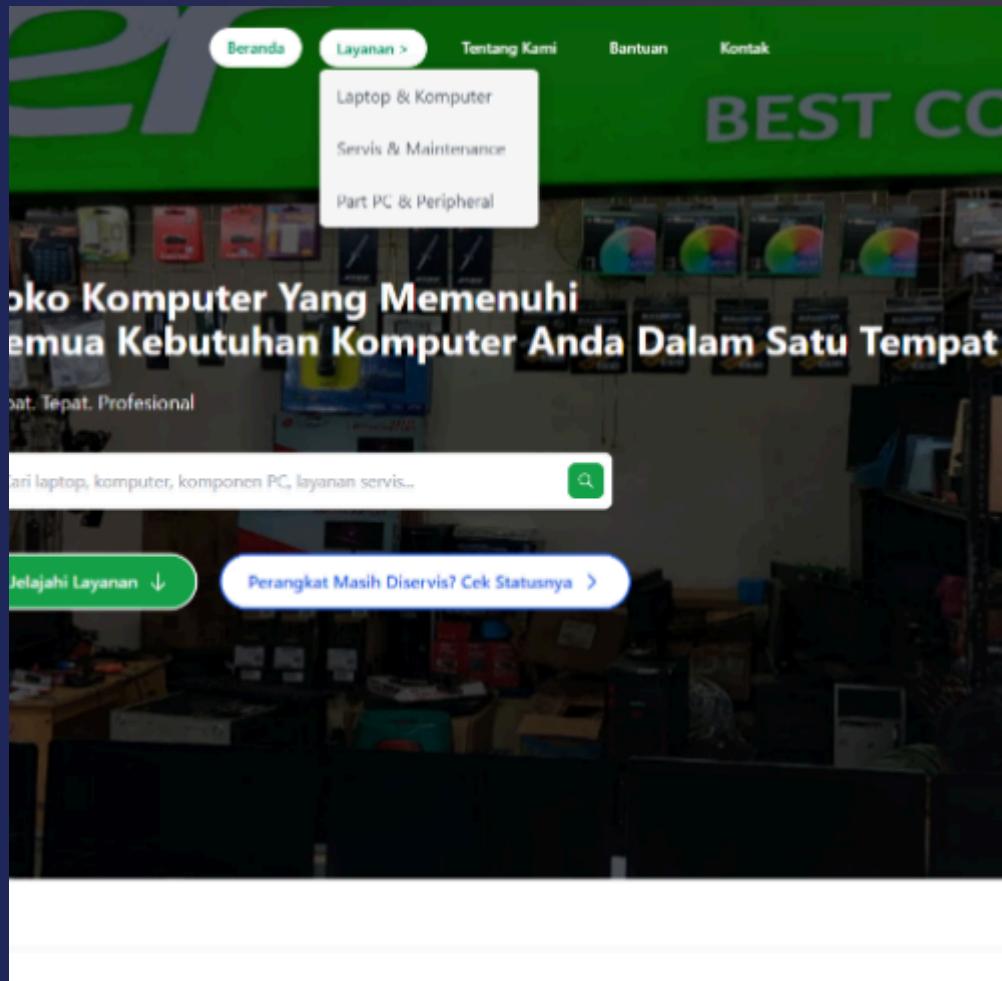

Login

The dashboard has a red header bar with the text 'Tambah Karyawan'. Below it, there's a card for an employee named 'Budi' with the name repeated in a smaller font. Underneath are three red buttons labeled 'Grafik Mingguan', 'Set Lokasi Kantor', and 'Atur Jam Masuk dan Pulang'. At the bottom is a map showing the location of 'Eka Hospital' and 'Bersuaka'.
